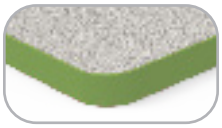
WB Manufacturing LLC

ELO® Table specifications

Lotz Armor Edge™ Tops:

Lotz Armor Edge™ top is constructed of 1.125" thick MDF (medium density fiberboard) core. MDF is a superior material for screw holding abilities exceeding 250 lbs., breaking strength and load tests. The back material is phenolic which **prevents moisture penetration** to core material and provides an anti gum surface. The top material is high pressure laminate that is bonded to the **MDF core** making the total thickness of the top at 1.25". The .25" beveled radius edge is finished using our exclusive Lotz Armor Edge™, a polyurea, which is extremely strong and durable. **This edge will not separate from the MDF core material and makes the edge water tight.** Lotz Armor Edge™ comes black standard. Colors available.

3mm Tops:



The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top making the total top thickness at 1.25". Matching WB Standard 3mm PVC edge banding is applied to all sides, radius corners.

Optional top surface choices include writable surface laminate or chemical resistant laminate and most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request.

Shipping Class: 70
NMFC: Tops: 83620-2 Legs: 097720
Assembly: Unassembled

Legs:

Legs are 14-gauge steel tubes which are fully welded to a triangular 10-gauge mounting plate, 1"(ELO) or 1.75"(ELP & ELS) x 14-gauge insert. The mounting plate is secured to the top with six metal-to-metal threaded inserts and ¼-20x15mm joint connector bolts (included). Legs are positioned at the widest point of the table to improve stability and to provide more knee clearance. Finish colors are powder-coated smooth silver (G4) or textured black finish (09). See chart below for color availablity for each leg type. Finished off with a 1⅜" adjustment nylon glide with ⅜-16 thread x 1". (Grand Hank glides are standard on the ELS fixed and Mini Jr. adustable legs.)
