## specifications

### Lotz Armor Edge™ Tops:

Lotz Armor Edge™ top is constructed of 1.125" thick MDF (medium density fiberboard) core. MDF is a superior material for screw holding abilities exceeding 250 lbs., breaking strength and load tests.

The back material is phenolic which **prevents moisture penetration** to core material and provides an anti gum surface. High pressure laminate is bonded to the **MDF core**. The .25" beveled radius edge is finished using our exclusive Lotz Armor Edge™, a polyurea, which is extremely strong and durable. **This edge will not separate from the MDF core material and makes the edge water tight.** Lotz Armor Edge™ comes black standard. Colors available.

### 3mm Tops:

The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top. 3mm PVC edge banding is applied to all sides, radius corners.

Optional top surface choices include **writable surface laminate or chemical resistant laminate** and most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request.

**Shipping Class:** 70

**NMFC:** Tops: 83620-2 Legs: 097720

**Assembly:** Unassembled

### Legs:

The UNET adjustable leg is 1.5" x 14-gauge square steel tube with a fully welded 10-gauge mounting plate. Leg attaches to desk with metal-to-metal inserts and 1/4"-20 x 15mm joint connector bolts. The lower leg is 1.25" x 14-gauge square steel tube and is fabricated to fit into the upper 1.5" square tube. Leg adjustments are connected to the upper leg with two drilled holes and then using M6-1x10mm screws are inserted into the punch holes of the lower leg for positive contact and safety with adjustability in 1" increments. Legs are finished off with a 1 3/8" adjustment nylon glide with 3/8-16 thread x 1".

### Connector Bar:

2x1"14-gauge steel tube with 14-gauge mounting tabs. Bar connects to legs with #12 star locker washers and M6-1x10mm screws. If you have an adjustable connector bar, use #12 star locker washers and M6-1x14mm screws to fasten the two connector bars together.

### Support Bar:

14-gauge steel bar that is attached to the top with #8x3/4" screws and is standard only on the Workstations(all sizes).

### Finish:

The legs/connector bar are available in powder-coated smooth silver (G4) as standard or with a texture black finish (09) as optional. The support bar is always black.
