

Lotz Armor Edge™ Tops:

Lotz Armor Edge™ top is constructed of 1.125" thick MDF (medium density fiberboard) core. MDF is a superior material for screw holding abilities exceeding 250 lbs., breaking strength and load tests. The back material is phenolic which **prevents moisture penetration** to core material and provides an anti gum surface. High pressure laminate is bonded to the **MDF core**. The .25" beveled radius edge is finished using our exclusive Lotz Armor Edge™, a polyurea, which is extremely strong and durable. **This edge will not separate from the MDF core material and makes the edge water tight.** Lotz Armor Edge™ comes black standard. Colors available.

Ergo Edge Front, 3mm Tops:

The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top. Ergo front edge with 3mm PVC edge banding remaining and has radius corners.

3mm Tops:

The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top. 3mm PVC edge banding is applied to all four sides and has radius corners.

Optional top surface choices include **whiteboard laminate or chemical resistant laminate** and most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request.

Shipping Class: 70
NMFC#: 83620-2

Legs:

The UNE-T adjustable legs are 1.25" square, 15-gauge steel tube with fully welded 10-gauge mounting plate. Legs attach to desk with 16 metal-to-metal inserts and screws. The lower leg section is fabricated to fit into the upper 1.25" square, 15-gauge leg assembly. Workstations can adjust from 21" to 30"; these adjustments are connected to the upper leg with two drilled holes and then screwed into the punch holes of the lower leg for positive contact and safety with adjustability. The screws are M6 Allen-head screws. Powder-coated smooth silver finish is standard. Leg is fitted with a non-marring adjusting glide with a .375"-16 stud with a 1" travel path.

Connector Bar:

1 x 2" 14-gauge steel tube with 14-gauge mounting tabs. Connect to legs with (4) ¼-20x15mm joint connector bolts.
