

CT082-FX

Construction:

The .8125”D x 4.5”H apron is constructed of solid maple with a UV finish with heavy duty 13-gauge steel corner braces. It has 2.25” solid maple square legs with .1325” hanger bolts, leg boots, and levelers. The top is 1.25” thick ChemGuard covered with canvas. The canvas top is held on with Velcro making it easy to remove, clean, and reattach. The table also has a clay cutter wire mounted to the top and angled across the depth of the top. The wire is secured with a twist-lock fastener, so if the wire stretched, you can easily tighten it again.

Shipping Class: Frames: Density Based Class, Tops: 70

NMFC: Frames: 82790, Tops: 83630-2

Assembly: Some Assembly Required
