

Study Carrels and Information Kiosks specifications

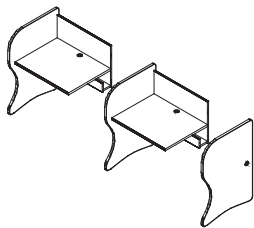

Components:

Both the Study Carrels and the Kiosks panels have a 1" thick particle board core, double-sided high pressure laminate(HPL). 1.25" HPL work surface with a phenolic backer, 34"W x 24"D. Choice of radius Lotz Armor Edge™ or a 3mm PVC edge banding front edge for the edge type. Customers have the choice of standard or custom laminates. Work surface is equipped with a grommet and cord channel, making wire management easy.

Base has adjustable non-marring nylon glides that help protect floors. Optional pull out keyboard tray.

Adder Units (-AD)

Create semi-custom units or can be used when adding onto exiting units.

Shipping Class: 70
NMFC#: 83620-2
Assembly: Unassembled
