

INTER-LOCK

furniture or fixture why choose?

WB Manufacturing's dynamic, repositionable REplay® cabinet series was designed to provide maximum flexibility and savings in the classroom, the lab, the office or anywhere you need storage solutions. These fully finished, stand alone, repositionable cabinets can now be installed as a semi-permanent fixture with the turn of a knob or as furniture ... why choose?

For more information on how the REplay Inter-Lock wall system creates complete construction contract flexibility for both the school staff or the architect with either attached fixtures or detached furnishing solutions, contact your Regional Sales Manager.

Mounting brackets can be "snapped" to length and attached to any wall with substrate appropriate fasteners.

Engage the lock and REplay cabinets are now a fixture of the building, yet easy to remove and relocate with minimal building repair and cost.

(Back of cabinet with wall cut away and lock engaged)
